

Why do we need your medical card?

A VSP WellVision Exam combines a comprehensive vision evaluation with a very important diagnostic medical eye exam.

Vision Evaluation

Your vision exam is an integral piece of your overall health, and typically involves:

- ✓ Refractive exam
- ✓ Dilation
- ✓ Prescription for glasses or contact lenses

Your eye doctor also provides important input about your overall health, and can diagnose eye conditions like:

- ✓ Diabetic Retinopathy
- ✓ Cataracts
- ✓ Macular Degeneration
- ✓ Glaucoma

We may ask you for your medical ID card to bill your medical insurance, in addition to your vision insurance. The care provided by your eye doctor leads to continued quality vision, and can also help identify health conditions that are often first detected through an eye exam.
